# BATTLE HEADS

DANGER ZONE

Fight to escape the danger zone  
with battle heads and protect the city.

There are 5 brave teams: Power Heroes, Sniper Bots, Aliens Attack, Creepy Monsters and Smasher Beasts.  
With 90 battle heads to collect, including special metamorphosis pieces, the fun never ends!  
Discover our 'how to play tutorials' and 'webisodes' to find new games to play with battle heads.

They rule the cities by using solar energy which is stored in luminescent crystals. They take on missions, acting as if they are the police of the planet.

This team are mean and evil. Thanks to the sunlight, they have created jungles where they live and feed. They try to take the light crystals from the Power Heroes to enhance their jungles.

Kings of the night that like tranquility. Their aim is to seize technology that allows them to transform light into darkness, which will enable them to expand their limited shelters.

Old companions of the Power Heroes that had always been looked down upon. They are now pirates that steal electricity and hack the systems of the other clans to prove their intellectual superiority and efficiency. If one day they decided to stop playing 'battle heads', they could build their own empire and rule the planet.

Coming from another planet, they are ready to invade and take over all resources. They travel in gigantic flying discs and propagate fungus on which they feed.
